

PEER TUTORING

*Are you strong in a specific academic subject? Do you find yourself helping others with homework or preparing for tests? Why don't you consider being a **peer tutor!***

A peer tutor meets one-on-one with a student, usually during lunch, for a period of 1 to 5 sessions. Additional sessions can be added if needed. Other than tutoring sessions, peer tutors do not need to attend meetings. It's a great, relatively low-key way of helping others, being part of the school community, and building your resume.
